# KU Languages

While you are exploring majors you may notice that some require what KU calls “4th level proficiency” in a Non-English language along with other degree requirements. 4th level proficiency does not always mean 4 semesters, some only take 3. You have plenty of time to explore different languages and reach proficiency while you are at KU!

The non-english language courses listed below are the beginning levels. If you have previous knowledge in a language, there are placement exams available per department.
